

WalkAction_CanStart

```
graph LR; A[WalkAction_CanStart] --> B[GetCharacterGameplayState]
```

A diagram showing a dependency. On the left, a gray rectangular box contains the text "WalkAction_CanStart". A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "GetCharacterGameplayState". Both boxes have a thin black border.

GetCharacterGameplayState
